

# Goals for CI Directors meeting

Ingrid Guch

6-17-08

# (A few) key items to address

- ★ Our 3 initiatives - CDRs, SATB, Education
  - Should we continue on, add more, subtract some?
  - To be discussed throughout the meeting
- CoRP Symposium and Student Exchanges
  - How do we ensure success?
- Administrative updates/reminders
- Feedback on how it has been going
  - Competitions
  - Policies and Procedures
  - Grants and \$\$\$
  - NOAA CI Directors meeting/interactions
- Reminder– NOAA cannot discuss CI competition sensitive information (CICS and CIRA expire 6/30/2009 and are being recompeted)

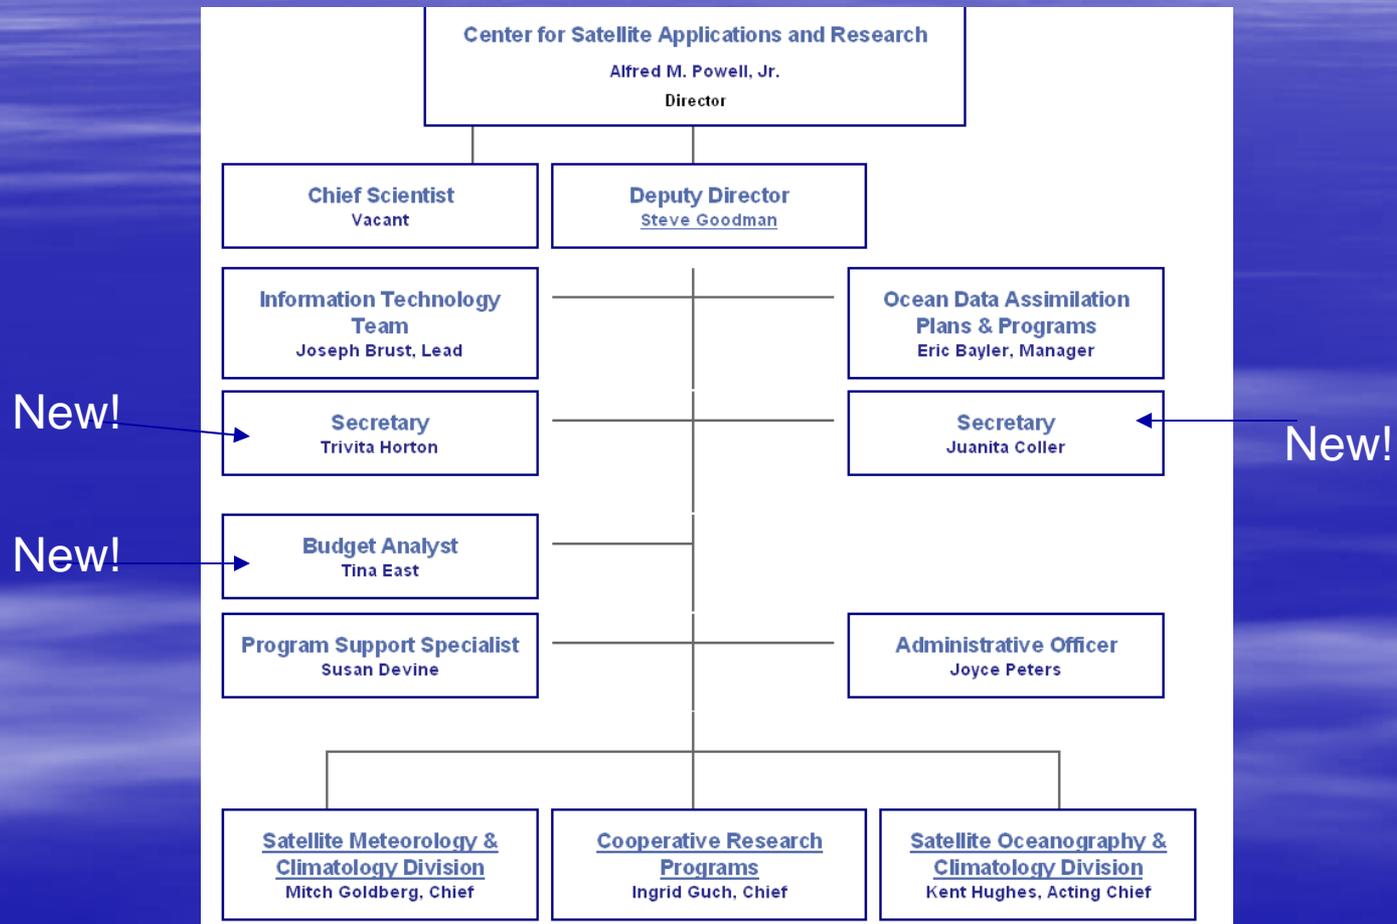

# CoRP Symposium

- Satellite Data and Model Fusion
- All CIs/CREST/STAR participation

# Student and Early Career Scientist Exchanges

- Who will go and where?
- This year STAR has a much smaller role in planning because the funds were transferred to the CIs

# Updates and reminders – STAR who's who

\*formerly Office of Research and Applications (ORA)

# NOAA Logo usage

- Currently CI's are under DoC logo policy
  - Requires VADM Lautenbacher approval on a per-case basis to use logo
- Special Award Condition for next year (if approved by VADM Lautenbacher) will allow CI's to use logo under some situations without VADM Lautenbacher approval
  - Is nothing better than something severely limited?
  - DoC Lawyers will not yield on web usage
- “NOAA” (letters rather than logo) can be used at any time
- Why the concern?
  - Once or twice a year a partner of NOAA will have the NOAA logo placed next to an editorial (as opposed to informational or factual) comment that causes confusion to the reader as to NOAA's position

# Importance of CI themes

- All proposals under the cooperative agreement must be under one of the CI themes
  - If it is not a theme then a different funding vehicle must be used

# Acknowledgements

- We work hard to acknowledge our CIs/CREST when including figures/citations from CI/CREST employees
  - Let me know if we need to work harder
- Please acknowledge NOAA when including figures/citations from NOAA employees

# CoRP Blog

- Student Exchanges
- Internal NOAA funding opportunities
  - GOES-R
  - Product Systems Development
  - Ground Systems
  - High Performance Computing
  - Mini-grants
- Meetings
- Job announcements
- Anyone with the secret email can post to the website (just ask me)

*<http://www.corpblogspot.org/>*

# Feedback?

Now and/or throughout the meeting

- Competitions
- Policies and Procedures
- Grants and \$\$\$
- NOAA CI Directors meeting/interactions
