

# Ingrid – Session II Wrap Up Points

---

- Acquisition focus as driver & funder
- User Interface – close, end-to-end
- R to O Focus (SPSRB and PSDI), standards
- NOT Acquisition dependent – SAB, JCSDA, CW
- Algorithm Choice
- SW vs HW
  - How to code
  - How to compare
  - How to share/publicize standards

## Points for Break Out

---

- Difference between NESDIS, User “operations”
- Communications Strategies
- If you had \$2M.....
- How to address the Learning Curve impediment for “external” partners
