JPSS STAR Science Teams Annual Meeting: Wrapup

Lihang Zhou
(Lihang.Zhou@noaa.gov)
JPSS STAR Program Manager
Meeting Objectives

- Review the progress of the JPSS STAR program over the past year and review objectives of the coming year.
- Present results/issues/science from the JPSS STAR science teams including: algorithm validation and maturity status, SNPP science results, plans for the coming year, and progress in preparing for JPSS-1.
- Hold individual meetings with the science teams and management to review the work plan, budget, and other management matters for the upcoming Fiscal Year.
- Hold user splinter meetings to develop plans for improved utilization of selected JPSS products.
- Inform the JPSS Program Office and NESDIS management on the status of the program.
Recommendations:

• Real-time data access for data product monitoring and anomaly detection and resolution

• Quality assurance of JPSS product stability and consistency during the mission life cycle

• Bridge gaps between the products developed and users need:
  – Engaged users in the product development early
  – Tailored products
  – User friendly data access
  – Test bed for user interaction and impact assessments
  – Website visualization

• About the annual meeting:
  – Hold this meeting every month
  – Invite more users to the next meeting
  – Have the same room for the sounding group
If you want to go fast, go alone.
If you want to go far, go together.
Thank You!
